PROFILE

Frontend web developer with a passion for building responsive, user-friendly web applications and turning designs into clean, functional interfaces. I enjoy creating intuitive digital experiences, writing maintainable code, and learning modern web technologies while collaborating effectively with teams to deliver high-quality solutions.

SKILLS

Languages & Frameworks: JavaScript, TypeScript, HTML5, CSS3, React.js, Next.js, Vue.js, Express.js

Tools & Technologies: Tailwind CSS, Git & GitHub, Fetch API, Firebase, Paystack, JSON Server

PROFESSIONAL EXPERIENCE

Dial247 Security - **2023**

- Worked as a frontend engineer to redesign the entire Dial247 Security website

LEGIT HUB INNOVATION (Internship) - **March 2026 – Present**

- Building **DirectRent**, a home rental platform, using **React**, **TypeScript**, and **Express.js**, while implementing secure authentication, role-based access

control, file uploads, Paystack payment integration, SEO optimisation, and modern frontend development best practices.

EDUCATION

Ladoke Akintola University of Technology — B.Sc. Computer Science

2023 – Present

AltSchool Africa — Front-End Development Track

2022 – 2023

Government College Ibadan

2014 – 2020
